

RACIN' THE STATION

RUN TT

BIKE e^{TT}

RUN TT

DUATHLON!

SATURDAY

October 10, 2026

NO RACE DAY REGISTRATIONS

“Racin’ the Station” Duathlon is a non-sanctioned USAT Run/Bike/Run event where the participants will “race” the International Space Station (ISS) as it completes one Earth orbit—91 minutes and 12 seconds. Marshall Space Flight Center will track the starting location of the ISS at the race start time and see who “beats” the Space Station by completing the event before the 91-minute & 12-second mark.

For more information & details, go to:

<https://runsignup.com/Race/AL/Huntsville/RacintheStation>
