

# Camp Holiday Trails Trail-a-Thon Course Map

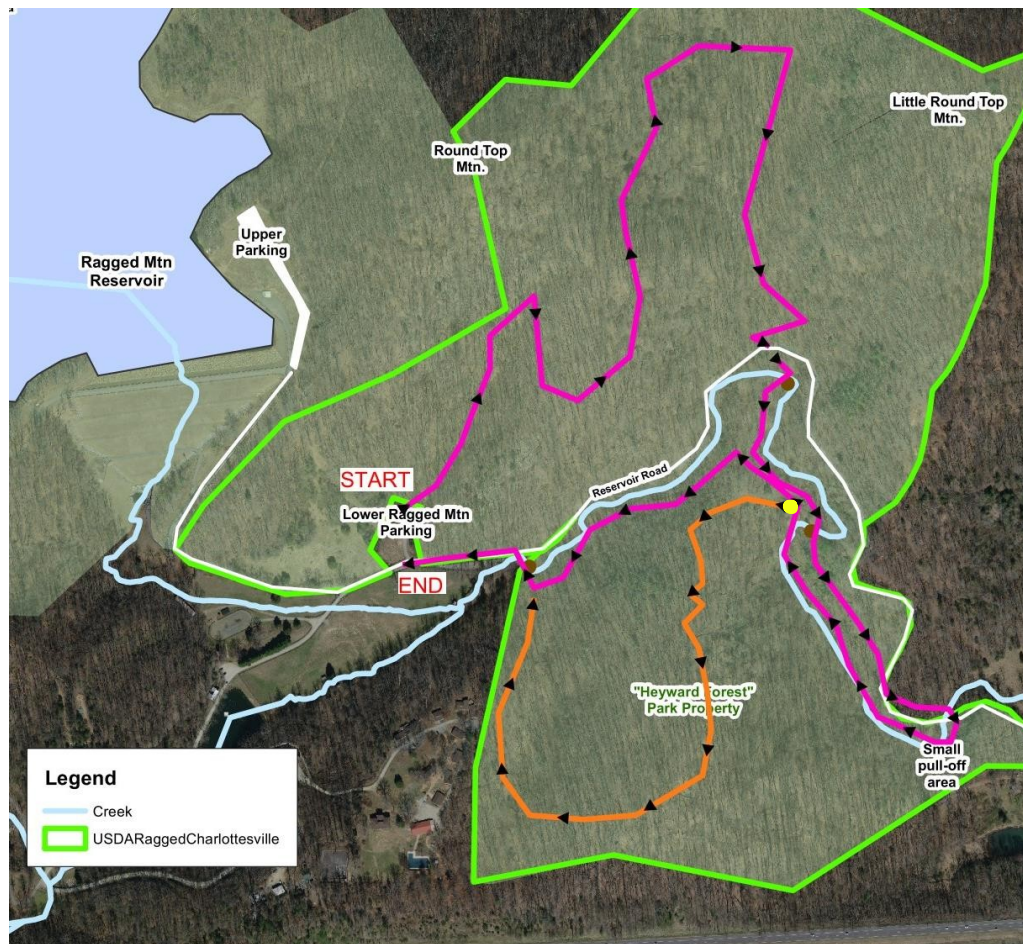

## Trail Options

The **purple trail** is our easier trail but please note that it is a little less than 3 miles.

Adding the **orange trail** (instead of following the purple trail along the creek back towards the lower parking lot) will be approx. a 5K distance and is our challenge course since it steeply ascends and descends.

We will have colored arrows along the trail to help guide you.

Since the orange trail is an addition to the purple trail, there are PURPLE and ORANGE arrows that denote the **COMMON** trail. **Arrow color does not necessarily correspond to path color.** There are two LARGE, WHITE, VERBAL signs (see yellow dot below) that denote **where the orange and purple trails diverge.**

## Directions

1. Start at lower parking lot, follow trail up hollow to the right and around large knoll, downhill to T-intersection.
2. Turn right and take trail down to and across Reservoir Road.
3. Cross footbridge (denoted by **brown circles**) and follow trail downstream all the way to small pull-off area below waterfalls.
4. U-turn and return up stream past the first (lowest) bridge.
5. Before second bridge turn left and follow stream side trail all the way up to last bridge and return to lower parking lot.
6. **To add orange trail**, after U-turn at bottom of purple trail, return upstream and cross first (lowest) bridge.

- a. Look for left turn up mountain near power lines and thru rock garden.
- b. Continue the trail until you reach the bridge/junction with purple trail and continue across bridge and back to the lower parking lot.
