# ABOUT US

Holistic and radically inclusive, we are a grassroots network of survivors and allies working to end the epidemic of abuse and exploitation, particularly in the forms of domestic violence, sexual assault, and human trafficking.

We partner with community groups that provide emergency shelter, health care, and counseling services and we mind the gaps between existing social service by providing relocation support, basic needs, transportation services, and more.

In this way, we advocate for victims, support one another, and empower survivors to speak out, pushing against the shame and stigmas that weigh us down.
