COURSE MAP

See next page for full sized course map

Digital Link (you may download GPX or KML files from link): <https://ridewithgps.com/routes/41195391>

Higher resolution of map can be found by click this [link](#)

Will the course be marked? Yes!

The course will have red flags along the path of the trail, tape on some of the trees, plus signs & arrows to guide the way. Almost all of the course markings will be on the right side of the course, unless there is a unique circumstance where the course will need to be marked on the left or ahead.

A. Forest Picnic Area - Base Camp

B. Wilson Mills - Essentials Only

C. Castle Climb

D. Squire's Castle - Aid Station

E. Chardon/Buttermilk - Essentials Only

EVENT SCHEDULE

RACE START/FINISH

The race will start and finish at Forest Picnic Area.

Forest Picnic Area Google Pin: <https://goo.gl/maps/rt5rYTM79nZnpgne9>

Thursday, October 30th

- 4:00 - 6:30 PM | Early packet pick up at 2nd Sole Lakewood, 18636 Detroit Ave, Lakewood, OH 44107

Saturday, November 1, 2025

- 4:00 AM | Early send off for 100k and 50k runners*
- 4:00 AM | Packet pick up (Will be open throughout the day)
- 5:00 AM | 100k starts
- 6:00 AM | 50k starts
- 7:00 AM | 20 Miler & 20 Mile Ruck starts
- 8:00 AM | 10 Miler & 10 Mile Ruck starts
- 9:00 AM | 5k starts
- 1:00 PM | 20 Mile afternoon start
- 3:00 PM | 10 Mile afternoon start
- 6:00 PM | must start last loop for 100k
- 9:00 PM | race closes/timing crew packs up

Awards | *Tentative Schedule*

- Top 3 Female & Male finishers for 100K, 50K, 20 Mile, 10 Mile, & 5K
- Must be present to receive award
 - 10:00 AM | 5k award followed by 10 mile awards
 - 11:00 AM | 20 mile awards
 - 12:00 PM | 50k awards
 - 5:00 PM | 100k awards

Additional Information

*100K early send-off voids you from the Overall Awards, but not the race or listing in events. Participants will still receive a finisher medal & buckle once they cross the finish line.

**Starting the last loop at 6:00 PM will not guarantee aid station support, finish line support, or a finisher medal

***The race closes at 9:00 PM. Any runners out on the course after 9:00 PM may not receive a time, finisher medal, or belt buckle (100K) for this event (sub 15:30 minutes per mile for the 5:00 AM start)

Participants who start a loop (loops) after 3:00 PM must have a headlamp or another source of light to help guide them on the trail. This is for the safety of the participant, as the sun will set at 6:21 PM.

A friend may pick up your packet for you. All changes to race distance, age, or gender, must happen prior to race start.

PARKING

Parking will be in the main parking lot at the AB Williams Memorial Woods. Overflow parking will be at the Nature Center.

- A.B. Williams Memorial Google Pin: <https://goo.gl/maps/kuThcDv74mK2DcfZ6>
- North Chagrin Nature Center <https://maps.app.goo.gl/1upCLxYwtM4DHxsy7>

Additional parking info

- ***No parking on the grass, anywhere.***
- Obey all traffic laws.
- The park will be open to the public during the race

We strongly suggest carpooling as parking is limited near the Start/Finish

Start/finish at Forest Picnic Area

Where to park

Staff parking ONLY

FOREST PICNIC AREA

-  Staff parking ONLY
-  Crew/Tent zone
-  Aid station + drop bags
-  Start/finish
-  Odd Dog Coffee truck

-  Packet pick-up
-  Timing/Staff ONLY zone
-  Bathrooms
-  Course arrows

DISTANCE DETAILS

DETAILS

- Ride with GPS Course Map
- The route is a 16.7km (10.35 mi) loop.
- There is a 16-hour cutoff for this event
- 100K runners may drop down to the 50KM during the race. Notify timer and/or race director of this change.

DISTANCE LOOP(S)

- 100K = 6 loops
- 50K = 3 loops
- 20 Miler = 2 loops
- 10 Miler = 1 loop
- 5K = route will use first 5K of course

COURSE TERRAIN

- 20% paved
- 80% trail/packed gravel

Volunteers will be knighting participants starting at 5:00 AM and ending at 9:30 AM.

After 9:30 AM, there will be a container with the coins at the top of the hill climb to collect & bring to finish.

HILL CHALLENGE/GET KNIGHTED

- Hill climb is behind Squires Castle, which is about halfway through a loop
- All 100K, 50K, 20 Miler, & 10 Mile runners, 10 Mile Ruck, and 10 Mile (morning and afternoon distances) will be knighted if they complete an optional hill climb.
- Participants will receive a token at the top of the hill that will be turned in at the finish line for the custom water bottle.
- This is about .15 miles up & down, to add about .30 miles
- This is a 400-foot climb

(There is no additional cost to be knighted)

Complete the knighted hill challenge & receive the rally towel at the finish.

RACE BIBS

Wear bib on front. Do not cover, bend, or fold.

100K Specific Bib

50K Specific Bib

All other
distances bib

**STAY TUNED
FOR 2025 BIB
DESIGN!**

RUCK

Ruck Divisions

Those wishing to race in the ruck category must provide their own pack and weight.

All participants must wear a ruck/backpack, plate carrier, or tactical vest with the minimum weight for your selected category throughout the duration of the event.

Gear will be weighed at the start and finish, and must maintain the minimum required weight.

The pack weigh-in will be 20 minutes before the 10—and 20 Mile distances start at the starting line. The athlete's pack weight must be on the ruck at all times.

- Light weight (15+ Lbs.)
- Heavy Weight (35+ Lbs.)
- Non-Competitive Division - No weight minimum

If you would like more information about rucking, visit this link [What is Rucking](#)

2025 ruck patch will have the new logo design, as seen above.

RACE SWAG

Participant
shirt

Finisher
medal

Hoodie
upgrade

Distance buttons will be given crossing the finish line to commemorate your race distance.

RACE SWAG

Belt buckle for 100K
finishers
4"x3"

Front

Back

Award Flag for top 3 male & female
winners for each distance

Castle Climb
cotton terry cloth
rally towel.

AID STATIONS/DROP BAGS

MAIN AID STATIONS

- Start/Finish Line and halfway through the loop at Squires Castle Shelter (mile 5)
- Stocked with pretzels, water, Nuun Endurance, candy, PB&J, salt tabs, Coke, Ginger Ale, cookies, pickles, bananas, and other items.
- We recommend bringing your own energy gels, but we will have these as well
- For specific race hydration & nutrition needs, we recommend having those items in your drop bag(s)

Vegan? Gluten Free?

Let a volunteer know so that they can direct you to these items.

ESSENTIALS-ONLY AID STATIONS

- Located at miles 1.5, 6.4, & 8.5
- Items will include: Water, Limited Energy Gels, First Aid Kit

DROP BAGS

Start/Finish

- Athletes can have drop bags at the start finish under the pavilion near the Aid Station

Conquer the Castle Aid Station

- Drop bags must have athlete name, race distance, & bib number on their drop bag
- Drop bags for 100K & 50K must be delivered at least 15 minutes before the race start to ensure it will make it to the Mile 5 aid station.
- Drop bags at this aid station **will not be** delivered back to the Start/Finish. It is up to the athlete and/or their crew to retrieve the drop bag.

GENERAL QUESTIONS

CHANGING DISTANCES

- Please communicate distance changes prior to starting your race. For 100K runners, you may drop down to 50K after each loop. Our goal is safety so please listen to your body.
- Should you decide to drop to the 50K, notify the timer and/or race director of the change

TIMING

- Race will be RFID chip timed.
- Wear you assigned bib on the **FRONT** so that we can identify you.
- **DO NOT** fold bib, as this may impact the RFID chip.

WEATHER

- The race will proceed, regardless of weather.
- If there is inclement weather, it is up to each runner to decide if they will continue/finish the race.
- We may have sloppy trails, rain, snow, etc. You should know what you need for the conditions present, and plan accordingly.
- Use common sense and take care of yourself. Know what you can handle

HORSES

- Same rule of tonnage applies. If you encounter a horse **STOP** running, walk to make your presence known. Ask for permission to proceed.
- **Do not scare the horse.** If you want to pet the horse as you pass, ask for permission.
- Be polite and you will receive politeness in return

LITTERING

- **Absolutely no littering.**
- If you can carry a gu/snack while it is in the package, you can carry the empty package after you have eaten it.

DROPPING FROM THE RACE

- If you find that you cannot complete your race, please return to the start/finish line and turn your bib in at the timing table.
- **Do not drop along the course, and leave.** We keep track of all of the runners and we don't want to go searching for you when you are all snuggly at home.

ADDITIONAL INFO

PACERS & CREW

- Pacers
 - As a pacer, you are agreeing to completing 2 loops or less of the course with your athlete.
 - As a pacer, you will not carry (mule) hydration or nutrition to aid your athlete.
 - As a pacer, you will carry your own supplies and only use aid station supplies if needed. Aid Station supplies are meant for the athletes.
 - As a pacer, you must wear your bib on the front of your body. **DO NOT COVER, BEND, OR FOLD.**
 - As a pacer, if you go out on the course after 3:00 PM, you must have your own headlamp (or other light) to help you see the course.
 - Pacers must now **CHECK IN** and sign a waiver prior to starting as a pacer. This process is fast and easy and will take place at the start/finish line registration area.
 - Waiver link
 - Pacers must [click this link](#) to register as a pacer.
- Crew
 - Crew may not meet up with participants at road crossings and may only meet runners at the start/finish or at the Squires Castle aid station.
 - Crew may have a tent set up, but it must not be in the way of the course/impede runners' forward motion

ROAD CROSSINGS

- The course is within the boundaries of North Chagrin Reservation. There are several road crossings for the 10 Mile loop
- There will be flashing lights on signs to make vehicle traffic aware of runner crossings, but, traffic is not required to stop. It is up to the runner to make sure the road is clear before crossing.
- It will be late in the year, and there will be only a minimum number of park visitors that are not associated with the race. But, use the rule of tonnage. Cars weigh more than you, they have the right of way. Use caution and all of your senses when crossing a roadway.

HEADLAMP

- Because of the early hours, all runners are **REQUIRED** to carry a headlamp for any loop that starts before 6:00 AM and after 3:00 PM.
- There is very little streetlight around the park and at times you will be deep into the woods. For your own safety, carry a headlamp, and a spare

RESTROOMS

- Two restrooms are available at the start/finish line with additional restrooms at the Nature Center and Squires Castle.
- Port-o-potties are located at about 3.75 miles and 6 miles
- When in doubt, carry some toilet paper with you

FIRST AID/MEDICAL

As with all events of this kind, please know that you are in sufficient health to participate in this endeavor. This document is to help you to understand some necessary medical issues that may be encountered in an ultramarathon. Its sole purpose is to keep you informed as you prepare for the race ahead.

There will be limited medical support before, during and after the race. Any emergencies will be dealt with through the Willoughby Hills Fire Department, located right outside the park entrance, on Rt. 6.

If an emergency arises, we suggest the following protocol:

1. Make it to the nearest aid station that has volunteers. Squire's Castle Shelter (5 miles into the course) or the Start/Finish at Forest Picnic Area
2. **If unable to reach the nearest aid station, call and/or text the Race Director, Melanie, at 216.339.3199**

If this is an EMERGENCY, call 9-1-1

Note: at Ox Lane (mile 3.5) to about Squires Castle Shelter (mile 5) there can be a dead zone with any cell phone carrier service.

GENERAL INSTRUCTIONS

- There will be a first aid kit at each aid station. The kit has small bandages, ice packs, etc.
- If you have an emergency: If you are at the aid station, let them know.
- The fire station is right down the street, and the volunteers will have instructions.
- If you cannot get to the aid station, let someone on the trail know your need, they will get help. ***Do not leave the course.*** We cannot find you if you are wandering in the woods. We will get help if you cannot proceed.

MEDICATION

- As a general rule, you should always consult your medical doctor regarding the use of any prescribed medications before, during, and after a race. It is strongly recommended that no over-the-counter, non-prescription medications be taken before, during, or immediately following the race. Medications can increase your risk for heat stroke, kidney injury, and dehydration. Of particular concern are amphetamines (Aderall, ect), diuretics, acetaminophen (Tylenol), and NSAIDs (ibuprofen/motrin, naproxen, etc).
- If you have a serious allergy or respiratory condition requiring use of your own prescribed medication (Inhaler, Epipen, ect), it is the participant's responsibility to carry these medications on the course at all times. These medications will not be available at the aid station. As stated previously, no medications will be administered by the race volunteers at any time, including intravenous hydration or any over the counter medications (tylenol, ibuprofen, ect). Only basic first aid and basic emergency care will be administered as necessary until professional emergency assistance (EMS, fire) arrives.

FIRST AID/MEDICAL

MEDICAL DISQUALIFICATION

- While every effort will be made to support your effort and goal of race completion, the potential for serious injury, even death, is real and the volunteers and/ or medical team may determine that you are medically unfit to continue. Should this occur, your name and bib number will be reported to the finish line and you will be medically disqualified. At this point you are no longer eligible for a finishing time and are expected to discontinue your participation.
- If your condition is deemed serious and emergent, local emergency medical services will be activated and you will be evacuated in a manner consistent with your condition.

DEHYDRATION

- A large percentage of the human body is composed of water, and it is critical for body maintenance and physiology as well as essential for athletic performance and life. A small degree of dehydration can be expected with any athletic event, especially an endurance event. HOWEVER, significant dehydration may reduce your performance and may put you at risk for kidney damage and other injury. Dehydration primarily occurs through sweat; however, vomiting, diarrhea, certain medications, caffeine, and alcohol may put you at significant risk for dehydration as well.
- Dehydration causing as little as 1% of body weight loss can reduce athletic performance and raise your body core temperature putting you at risk for other injury. Some signs and symptoms of dehydration include but are not limited to thirst, flushed skin, cramps, dizziness, headache, vomiting, nausea, chills, decreased performance, and abnormal breathing patterns.

KIDNEY INJURY

- Kidneys are essential for filtering the blood, which in turn provides fluid and electrolyte balance. Dehydration decreases blood supply to the kidneys which can in turn damage them.
- Non-steroidal anti-inflammatory drugs (NSAIDS) can damage kidneys as well, which is why they are not recommended during an ultra-distance event. Signs and symptoms of dehydration can additionally indicate impending kidney failure.
 - NSAIDS include: Aspirin, ibuprofen, and Naproxen

LOW SODIUM (HYPONATREMIA)

- Sodium tends to be the most problematic electrolyte in the endurance athlete. If your sodium levels are too low, significant neurological complications can occur.
- Maintaining sodium levels in the endurance athlete varies, and there is no standard approach. It is important that you are aware of the need to maintain sodium and that you have a strategy in place during the race. Most sodium is lost via sweat and urine, but another cause of low sodium levels is not drinking fluids with sodium during the race.
- If you drink too much fluid and not enough sodium, you are in essence diluting your sodium levels in your bloodstream. Some signs and symptoms include but are not limited to headache, nausea, confusion, lack of coordination, weakness, seizures, coma, and can lead to death.

FIRST AID/MEDICAL

INJURED ON COURSE

- If you are injured and cannot continue on your own or with assistance, please stay where you are and send someone to the nearest aid station via the race course. Do not attempt to take a shortcut through the woods; please stay on course. Important information to deliver to the aid station includes:
 - Injured participant's bib number
 - If the injured participant is conscious and alert
 - Primary problem the runner is experiencing
 - Exact location of the runner
- If you are injured but still able to move on your own or with assistance please attempt to reach the nearest aid station to notify any medical volunteer or aid station volunteer that you are going to discontinue the race. Again, do not attempt to take a shortcut, stay on the race course. Do not leave the race without notifying one of the volunteers, we must be informed that you have discontinued the race. If you are at an aid station, effort will be made to provide you with a ride back to the start/finish at squire's castle. The race course covers a fairly large geographic area; please be patient if you are waiting for a ride back to the race start/finish.
- In the event of a medical emergency, you will be transported by ambulance to a local medical facility prepared to treat your specific medical emergency. While there are trained medical volunteers, they will only be able to provide basic first aid and basic assistance in a medical emergency. No medications will be administered by the race volunteers at anytime, including intravenous hydration or any over the counter medications(tylenol, ibuprofen, ect.). There is a nearby fire station in Willoughby Hills and a nearby trauma facility in Mayfield, Ohio. It is important to recognize that all expenses related to such a medical emergency are the sole financial responsibility of the race participant. Please have your insurance information and personal identification available in the event of an emergency.
- Given the significant risk to your health and potential financial burden created by medical assistance, we strongly encourage all participants to challenge themselves during the race while maintaining a healthy perspective and a personal awareness of limitations. Moreover, this race demands prior training and proper preparation. If you have not trained properly for this event, you should not participate. Runners assume all risk associated with participation in this event.

RACE DAY VENDORS

These vendors will be at the Start/Finish at Forest Picnic Area

Odd Dog Coffee will be serving coffee, pastries, & ice cream for purchase from 7:00 AM - 11:00 AM!

Pin-Point Physical Therapy will be offering services from 9:00 AM - 2:00 PM.
