ABOUT WINKS

2nd Annual

TEE UP FOR BRAIN TUMORS

OUR IMPACT

- WINKS - **W**ith **I**ntentional **K**indness and **S**upport, an all-volunteer 501(c) (3) organization, works on behalf of brain tumor patients and caregivers in Hampton Roads.
- WINKS awards need-based Empathy in Action grants to assist with the financial burdens of a brain tumor diagnosis.
- WINKS distributes “Brain Tumor Power Packs” at local medical facilities for newly diagnosed patients to empower them to make informed decisions about care.
- Other ways WINKS serves patients and caregivers:
 - Facilitate support groups
 - Directly support through phone calls and emails
 - Connect with resources
 - Provide information through our website and social media

OUR VISION

- Lifting the Burdens to Focus on the Fight! WINKS is the only local organization focusing solely on brain tumor patients and caregivers.
- Our working board and volunteers are personally connected to this journey, including survivors, caregivers, a physicians, nurses, and those who have suffered the tremendous loss of loved ones to this devastating disease.
- We have fully committed to overseeing and implementing our mission: Enhance the quality of life for brain tumor patients and caregivers With INTentional Kindness and Support.

WHY SPONSOR

THE FACTS

2nd Annual TEE UP FOR BRAIN TUMORS

DIAGNOSIS

An estimated 700,000 people are living with a primary brain tumor; roughly 3,600 live in Hampton Roads with another 120 diagnosed annually.

LIFE-ALTERING IMPACT

More than any other cancer, brain tumors can have lasting and life-altering physical, cognitive, and psychological impacts on a patient's life.

FINANCIAL IMPACT

Brain tumors represent the highest per-patient initial cost of care for any cancer group, and the highest annualized mean net costs for last-year-of-life.

METASTATIC BRAIN TUMORS

Each year, approximately 70,000-170,000 cancer patients are diagnosed with metastatic brain tumors/secondary brain tumors, while ~100,000 will die every year as the result of brain metastases.

LOSS OF LIFE

More than 18,200 people are estimated to lose their life because of a malignant brain tumor/brain cancer in 2022.

Pediatric brain tumors are the leading cause of cancer-related death among children and adolescents ages 0-19 years.

SURVIVAL RATE

For patients with a malignant brain tumor, the five-year relative survival rate is 35.6%.

For the most common form of primary malignant brain tumors, glioblastoma, it is only 6.8% and median survival is only 8 months.
