THANK YOU FOR MAKING IT ALL POSSIBLE FOR CHILDREN LIKE DANIELLE

Danielle was born with an unspecified brain injury. She had difficulty controlling her body. She would collapse to the floor without warning or run without stopping until she hit a wall. During Danielle's first lesson at Lovelane her parents watched through tears as she sat upright on a horse, controlling its movement when she could hardly control her own. She was flanked on either side by a volunteer as her instructor took her through the lesson.

AGE 6

AGE 33

It was magic. As she got older, Danielle defended fiercely against her disability. She did not want to be different. She looked on as her peers participated in a variety of sports that she did not have the skills to join. Horseback riding became Danielle's superpower. She owned it as her sport, and it became something that she could teach others about.

Supported by her Lovelane instructor, Danielle went on to become a gold medal recipient in the Special Olympics! Beyond the lessons, Lovelane has provided Danielle with a loving, inclusive community that has bolstered her confidence and her capabilities. Moreover, Lovelane has directed her towards her most meaningful vocation working in a barn and caring for animals. Lovelane has been part of Danielle's family for so many years now. They are recipients of the Tuition Assistance Program, without which her participation at Lovelane would not have been possible.

ABOUT SUSAN MCDANIEL

Susan, an athlete, actress and equestrian, was a student at Lovelane throughout her two-year battle with cancer. Susan showed us how to defiantly live life. When she lost coordination in her right hand, she learned to write with her left. When treatments left her too exhausted to ride, she took joy in simple stable chores. Susan's family spearheaded the Run in her memory to ensure all families have access to Lovelane's unique and effective therapy.
