### Notes:

1. It is likely not 2.5 hours to Utica, but we are building in time for **one** (1) stop on the way and **one** (1) stop on the way back. This is the maximum number of stops anticipated.
2. GRTC will NOT be identifying runners in any special way. As there will be other buses parking in the same lots, it is possible that people not going to Rochester will try to get on the bus, hoping to be taken to the parking lot. Just FYI!
3. The GRTC trip leader will take attendance before departure from Rochester and before departure from Utica, just to make sure we do not leave anyone.
