

Our Mission

Running 4 Clean Water+ provides humanitarian outreach to children and families who struggle due to significant poverty in Sierra Leone and other African nations. We accomplish our mission by making available clean water wells, sanitation facilities, solar lighting, and support the development of medical clinics, schools and other life changing initiatives such as farming implementations and nutritional education intended to lift up the poorest of the poor.

Our Partners

We are partnering with U.S. based Seven Hills Global Outreach and Sierra Leone based Zion Ministries for this life changing endeavor. Zion Ministries works to provide local jobs and skills to dig and maintain the water wells. If outside machinery is needed this will be sourced from local companies, providing employment and adding to the local economy.

"A community well creates a communal meeting place ... Our interventions go to help bring such cohesion and communal unity, bringing along tribal and religious tolerance and ensures community peace."

– Pastor Kanu, Zion Ministries

Our History of Success

Since our beginnings in 2011, we have raised over **\$220,000** to provide clean water in rural areas of Africa. Wells cost between \$3,000 and \$20,000 to dig, depending on soil condition. Areas with wells experience dramatically improved health and greatly reduced impact of the ebola crisis.
