Finding a Cure

• *Twenty-five percent* of all net proceeds funds cutting-edge research programs through the National Komen office. **NONE** of this money supports National's overhead; it is exclusively used for research. In 2012, over \$700,000 from Central and South Jersey Affiliate supported research.

• A leader in breast cancer research, Susan G. Komen for the Cure has been a part of every major advance in the disease since 1982.

• Komen is the world's largest private funder of breast cancer research investing \$63 million in 2011 to fund programs for treatments, causes, and breast cancer prevention.

• Dr. Yibin Kang, from Princeton University is a Komen research grant recipient. He is researching how breast cancer cells metastasize. There is hope he is on the verge of a breakthrough.

• Susan G. Komen for the Cure also funds the Komen Tissue Bank at Indiana University. This is the world's only healthy breast tissue bank. Work at the facility is instrumental in determining the cause of breast cancer.

Helping Local Women

• The Central and South Jersey Affiliate serves 13 counties in New Jersey from Somerset to Cape May.

• Seventy-five percent of net proceeds support local programs in Central and South Jersey.

• In 2012, nearly \$1.5 million supported 25 programs providing education to 33,000 and mammograms for 9,000 women.

• Grant programs target underserved women and break down healthcare barriers.
