Also a One Mile Walk on a special course along the water

Saturday, September 11, 2021 at 9:00 am

Registration begins at 7:30 AM

Walnut Beach, Milford, CT

**Uganda Farmers Inc.** is a nonprofit organization that brings clean, running water to remote villages in Africa. The organization's main fundraising event of this year will be **Running Water for Africa 5K Race on September 11, 2021**. We've brought water to thousands of people in remote villages in western Uganda through our fundraising efforts over the past several years. The proceeds of this year's event are for Kasese, a town in the western region of Uganda. The area where we plan to drill a well is very rural. Kids walk miles each day to and from the watering hole to fetch water for drinking, bathing and cooking. Unfortunately, the villagers share the water source with various animals so they have to boil it before using it.

We'll dig a borehole that will allow them access to pure, clean water. It will serve approximately 3,000 people. Please join us at our event this year to help give the gift of water!

Donations may be sent to Uganda Farmers, Inc.
