

Instructions for RFID Shoe Tags

- Tags should hang freely off the **side** of the shoes. They **should not** be tucked inside the shoe or under the laces.
 - On each shoe, thread the lace through the RFID tag so that it rests **on the side** of the shoe, and then tie your shoe back (see picture below).
- Before you leave the finish corral, please return shoe tags to the finish line crew.
 - **Please do not tear shoe tags off of the shoe!**
