

## Our Mission

Contaminated water threatens lives and destroys livelihoods on a devastating scale. **Running 4 Clean Water** aims to provide communities with clean and safe drinking water for the rural regions of Africa by building wells and sanitary, environmentally friendly toilets.

## Our Partners

We are partnering with U.S. based Seven Hills Global Outreach and Sierra Leone based Zion Ministries for this life changing endeavor. Zion Ministries works to provide local jobs and skills to dig and maintain the water wells. If outside machinery is needed this will be sourced from local companies, providing employment and adding to the local economy.

**Seven Hills**  
Global Outreach

*"A community well creates a communal meeting place . . . Our interventions go to help bring such cohesion and communal unity, bringing along tribal and religious tolerance and ensures community peace."*

– **Pastor Kanu, Zion Ministries**

## Our History of Success

Since our beginnings in 2011, we have raised over \$160,000 to provide clean water in rural areas of Africa. Wells cost between \$3,000 and \$20,000 to dig, depending on soil condition. Areas with wells experience dramatically improved health and greatly reduced impact of the ebola crisis.
