Improving Healthcare possibilities for teens and adults with developmental disabilities

Dear Friends of ADMH:

Thank you for your support and interest in the **Adult Disability Medical Healthcare (ADMH)**. Built on the Patient-Centered Medical Home model, ADMH provides coordinated, comprehensive care centered on each patient's unique needs—care delivered with patience, expertise, and deep compassion.

For teens and adults with developmental and intellectual disabilities (I/DD), navigating the healthcare system can feel impossible. Many face complex medical conditions. Yet too often, traditional healthcare settings lack the time, training, and sensitivity required to serve them well. Families searching for compassionate, competent care routinely find themselves searching for providers appropriate for their child—hoping, worrying, and trying to fill the gaps on their own.

ADMH is one of the only nonprofit healthcare programs in the Southeast serving teens and adults with intellectual and developmental disabilities (I/DD) through a comprehensive, community-based medical home model. While we accept Medicaid and insurance, **reimbursements do not come close to covering the true cost of care**, especially for patients with complex needs. Many vital services—care coordination, behavior support, caregiver education, transition planning, wellness programs—are **not reimbursed at all**.

Your sponsorship of the ADMH RUN FOR HEALTH will help us fill those gaps! Together, we can build a future where every individual with developmental disabilities has access to compassionate, coordinated, expert medical care—close to home, without barriers, and without delay.

With gratitude,
The ADMH Team
