About Community Youth Advance

Community Youth Advance transforms out-of-school (OST) time to help all our youth thrive. Our OST programs fill existing gaps in the local community and help our youth find pathways forward. Academics are at the core of what we do—we teach children through extended-day learning programs and Saturday School. We partner with the community so that caring adults are all working together to lead our youth through mentorship. Additionally, we provide tools and support to help our youth and their families find their own pathways forward through college and career experiences.

About Leadership Prince George's

The Emerging Leaders Program is an eight-month leadership development program that provides activities and venues for educating 11th and 12th grade students about the importance of being informed and engaged in their communities, and seeking opportunities for personal growth and professional development. Initial focus Areas include healthy lifestyles and civic engagement. Future programs will include activities geared toward young professionals under twenty-five years of age.

The Breakfast Club is an informal networking and community engagement initiative for young adults under thirty-five (35) years of age. Participants meet, at least quarterly, to exchange ideas, offer professional development support and mentorship, collaborate with other young professional organizations and engage in activities focused on Community Trusteeship.

"For Your Health" Healthy Lifestyles Initiative is designed to encourage healthy lifestyles among LPG graduates and other professionals. The initiative provides LPG graduates with information, activities, and incentives to engage in healthy eating and exercise, and to regularly schedule checkups.
