

Mighty Moose 2022 Course

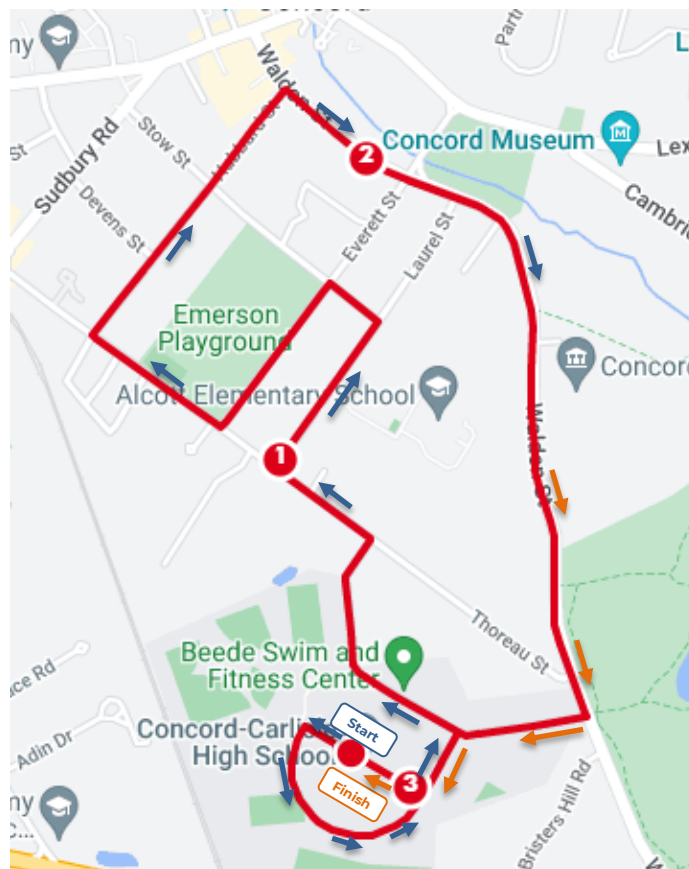

Overview

We have altered the Mighty Moose 5k course for 2022, in response to feedback from the Concord Police Department. The main feature of the new course is that it avoids running through Concord Center, which caused a prolonged traffic bottleneck on a Sunday morning. The new course preserves as much of the old course as possible, but reduces the impact on Concord Center. It achieves this by looping around CCHS just after the start, which then allows us to avoid running through Concord Depot and Concord Center.
