

March Madness Fundraiser
NCAA Basketball Playoffs
Semper Fi & America's
Fund

1. Decide on how much you want to charge people to participate in your bracket challenge. Collect the money however you wish; cash, check, Venmo, PayPal, etc.
2. Create a Group for your friends/family who are going to participate using an online bracket challenge or have people fill out a paper bracket and turn it in to you before the tournament starts.

3. Invite your friends and family to participate in your bracket challenge.
 - Post on Social Media
 - Share via email
 - Share with work friends
4. How to Score the Brackets
 - The standard scoring system awards one point for each correct pick in the Round of 64, two points in the Round of 32, four points in the Round of 16, with rewards continuing to double each round until the championship, where picking the ultimate winner is worth 32 points.
5. Payout
 - The table below shows the number of payouts per entry, along with the percentages that should be paid out based on what place the participant finishes. If your number of entries is between one of the sets of numbers, you should round up to the next number of payouts (15 entries would pay 2 places).
 - Divide the money collected between the Semper Fi & America's Fund Fundraiser and the payout to the winners. 50% goes to your fundraiser and 50% can be divided among your winners.
