## 25K Run Training Schedule

Remember to warm up and stretch before your workout as well as cool down after your workout.

### Benefits of Training:

**EASY** Pace: Improves body's ability to transport blood and oxygen

**TEMPO** Pace: Improves the lactate threshold

**STEADY** Pace: Increases aerobic capacity (VO2 Max)

**RACE** Pace: Improves speed and economy

**HILL Training:** Develops leg strength and power

**EASY** Pace: This is a recovery run. If you're really tired, you may even decide to take this day off. Easy days are planned recovery days, which are essential to staying injury free

**TEMPO** Pace: This is just above your present 10K race pace. For example, if your 10K pace is 7 minutes per mile, your "tempo" pace would be somewhere in the range of 7:30-7:45 per mile. A key test is the "talk test." If you can still talk, although uncomfortable, you're probably okay. If you're running so hard you can't talk at all, you're running too fast

**STEADY** Pace: This is used at the end of some long runs. You may incorporate other "steady" efforts on your general run days. Steady means you're moving along, not really at "tempo" or race pace, but a steady effort

**RACE** Pace (RP): This should be based on your goal pace for your Fifth Third River Bank Run event. Your race pace should be a realistic goal, challenging but achievable.

**HILL Training:** Run up the hill(s) hard and jog down easy. Plan 10-15 minutes of actual running uphill during your training

25K Pace per mile and Resulting 25K Time - must complete 25K in 3.5 hours for official results

Before undertaking a training schedule, please read the following: Fifth Third River Bank Run and Greg Meyer disclaim any liability to persons who undertake these training programs. These schedules are for runners who have no current physical or health problems.

It is recommended that runners be examined by a qualified physician before beginning one of these schedules or other programs of strenuous exercise. Greg Meyer feels that a person who completes one of these programs should be able to complete the Fifth Third River Bank Run 25K, 10K or 5K. Neither Fifth Third Bank nor Greg Meyer claim that these programs are correct for any particular person. It is your responsibility to determine that you are fit enough to undertake one of these programs and monitor its effect on your health.

If you cannot physically complete the first four weeks of your event's schedule, you should re-evaluate whether you should compete in that event. Before you begin training, buy a good pair of running shoes from the experts at Gazelle Sports who know how to fit running shoes. Carefully stretch your muscles before and after each workout, and drink appropriate amounts of water before, during and after each workout.
