

Stasny Road Racing Race Timing Management

Timing & finish line services:

Stasny Road Racing timing and finish line services ensure an accurately timed race, superior customer service for your athletes, and finish line services that give you a one-stop approach. We use ChronoTrack timing solutions as they are the most cost-effective and accurate technology available, including their disposable tag solutions for a variety of races.

Our timing services:

- Database management
- On-site paperless registration and race check in
 - Disposable bib tag RFID timing from ChronoTrack. Best part, there disposable!!
 - Real-time results and timely awards, overall, age group and division awards
 - Complete finish line set up with finish, camera, LED finish clock and more

Registration and on-site registration management:

We can consolidate registration, on-site registration and race check in with our race scoring using ChronoTrack Live - this eliminates any manual data entry or transfers and eliminates potential data errors. It also allows you to keep registration open to the start of the race and benefit from last minute registrations the week prior to your event.

With on-site paperless registration you improve the athlete experience, enable credit card payments, and free up staff from data entry and allow them to focus on serving athletes.

Disposable Timing Chips:

We use Chronotrack Live and the disposable Chronotrack timing chip to provide fast and accurate results! These chips are attached to the back of the bib number and they never need returned!

No fee for lost chips!

No Lines or backups in the finish line chute!

Allows volunteers to be repurposed in better locations!

Instant Live On-Site Kiosk Results

Athletes can find their results online as soon as they cross the finish line!

Results are instantaneous: Once a runner crosses the finish line, they can view their stats at our kiosk or on the web, and even post it on social media.

GO GREEN! No paper mess. Less Lines it's easy to find results!

Social Media Updates

Receive real-time updates from on the course and the finish line to Facebook, Twitter or text messages. Sign-up for athletes updates and spectators can be added to your registration form and notified as soon as you cross the finish line.

About us

Stasny Road Racing is run by Chris Stasny and is based out of Ashtabula, Ohio. Chris is a veteran to the sport of racing with 10 years of running, coaching and race management under his belt. Preparing for race day is Chris's specialty and making sure your racers have a positive experience and receive fast and accurate results is his top priority. Big or small, Chris is no stranger to the nuances of event organization. With the completion of the 2015 season, we have wrapped up our third successful season. We have huge hopes and goal for the 2016 season! We will be pushing harder than ever before to make sure more races are successfully managed.

As a race timer and event manager, we always strive to be the first ones on site on race day and we are the last ones to leave. We insist on overseeing the entire race from registration, the start, the finish line, and awards. Along the way I will always answer questions, especially ones that could affect the runner's race experience and alleviate the problems before they happen. The reason we push so hard is to make sure everything is perfect on race day is because the success of your race is a direct reflection of Stasny Road Racing and we strive to hold a high standard compared to other timers.

Please feel free to contact Stasny Road Racing and we can review your race and we can get you a quote. I promise you that you will not be disappointed with the service you will receive from Stasny Road Racing. You can contact us through any of the following methods: Website: www.stasnyroadracing.com click on the Race Directors tab. Email: stasnyroadracing@gmail.com or you can call me directly at 440-344-8371. I look forward to working with your race!
